Using \$2500 as the gross amount, 3 Exemptions, Married as the filing status, and entering the exemptions listed, the estimated net amount is \$1812.82.

You can clear the data, get current data and re-calculate until you see the result that fits into your tax budgeting needs. Once you have an estimation that you are satisfied with, you will need to change your Tax Withholding options the ESS dashboard.

The screenshot shows a software interface for tax calculation. At the top left is a 'Close' button. Below it is a blue header bar with 'Payment Modeling' on the left and 'Welcome, Connie Wheeler' on the right. The main area is split into two columns. The left column contains input fields for 'Exemptions' (set to 0), 'Marital Status' (dropdown), 'Extra Withholding' (text and dropdown), 'Local' section with 'County', 'City', and 'School' dropdowns, and 'Deductions' section with 'Exempt(Pre-Tax)' (105.08), 'Section 125 (Spend.Acct)' (122.58), '401(k)', '403(b)', '457', and 'After-Tax' (148.40), each with a text input and a dropdown menu. At the bottom of the left column are three buttons: 'Get Current Data', 'Calculate', and 'Clear'. The right column is titled 'Results' and contains a table of calculated values.
